

# KYNEPILOT

In-line Lab & Small  
batches Dissolver

HIGH-TECH  
DISPERSING

DISPERSING PROCESS

# KYNEPILOT

## In-line Lab & Small batches Dissolver

- Electronic speed variation with frequency converter
- High flexibility and versatility to cover a wide range of products, viscosities and densities
- AISI 316 pipes with clamp connections
- 7 to 25 l batches
- Process scalability
- Common database between Lab unit Kynepilot and Production unit Kynesis
- Recirculation tank equipped with cooling jacket, temperature control and stirrer

### ADVANTAGES:

- Small foot print and movable skid with integrated electric board
- From R&D to production
- Small batch production
- Innovative and user-friendly HMI
- Easy cleaning of the dispersing chamber and pipes
